WILL CHINA GO THE WAY OF POLAND?

Wang Shih-tseng Member, Central Committee, and Chairman, Publication Committee, Young China Party Member, Legislative Yuan

Stinese Communists frequently make this explanation, "Our Communist Party is the Chinese Communist Party, not the Russian Communist Party."
This is what is referred to as the "nationalistic trend" of the CCP. We hope that there is this trend among the Chinese Communists, but even if there were some leaders in the CCP so inclined, the Party could not produce a Chinese Tato. It is not within China's power to extricate herself from USSR control. The reason Tito is able to maintain his position in Yugoslavia is don't only to his own ability and to his prestige among the people, but also not that there is a control. elec to the feet that other Yugoslav Communist leaders are not in a position to contest his leadership. Furthermore, even the Yugoslav Communists as well as the rest of the people accept the principle of the formation of a Balkan federation of which Yugoslavia would be the leader.

The Chinese Communist situation is different. There is a rift between those outside the Great Wall Manchuria and those inside the Great Wall Morth China. From this we may see, entirely apart from the question whether Communiar is suit-able for China, that even if China wanted to do as Yugoslavia has done, she

cannot. It is impossible for Mao to control China completely as Tito does Yugoslavia.

As for China going Poland's way, Soviet policy vis-a-vis China, at least in regard to the Northeast, is similar to its policy in Poland. And it is becoming clearer that the USER plans to make a second Poland out of all China. Ever though among the Chinese Communists there may be one or two Comulkas, the USER considers that they may be chelly waved aside, and that they present no obstacle to the consummation of her major plans.
